[Special to The Times-Dispatch.]
PETERSBURG, VA., February 16.—A verdict assessing the plaintiff's damages at \$3,250, was rendered by a jury in the Hastings Court this afternoon in the suit of Miss Kate W. Beasley against the Virginia Passenger and Power Company for \$10,000 damages, claimed for injuries received while alighting from a passenger car in October, 1905. R. H. Mann, counsel for the company, has not yet made any motion to set verdict aside, or given notice of appeal, but this term of the court continues until next Tuesday. Miss Beasley is represented by the law firm of McIlwaine & Plummer.

Make Reunion Success.
A circular letter, copies of which are to be sent to all Confederate camps in the State, was issued to-day by General Stith Bolling, of this city, who commands the Virginia Division of the United Confederate Veterans. General Bolling shows in stirring words the duties of camps to their State and to their comrades, and urges all to aid the citizens of Richmond in making the next reunion the most memorable in the history of the Grand Camp, anticipating a greater attendance than at any other since its organization. The writer emphasizes the importance of the aid of all camps in passing regulations at the next annual meeting to insure an accurate history of the Southern cause and the soldiers of the South, and to benefit their comrades and survivors. Delinquent camps are called upon to pay up their dues for representation in the Grand Camp, and camps without charters are urged to procure them, and through the Grand Camp keep in communication with their comrades throughout the South.

Historical Meeting.
Petersburg Chapter, United Daughters of the Confederacy, held its first "historical meeting" of this year at A. A. Hill Camp Hall yesterday afternoon. In the absence of the historian, Mrs. William M. Jones, the program was carried out by the president, Mrs. W. P. Drewry. A paper on "The Organization of the Daughters of the Confederacy" was read by Mrs. William M. Martin. "The Women of the South" was the subject of a paper by Mrs. Marion L. Wells, and Mrs. W. Pryor Jones read a sketch of the life of Captain Sally Tompkins, and incidents in the lives of other noted women of the Confederacy. Papers said to establish his claim to a five-million-dollar share in a big New York estate have come into the possession of Dr. Wm. S. Stubbs, a well-known character around the city for many years.

WASHINGTON, D. C., February 16.—On motion of Mr. Gardner, of Massachusetts, the House to-day passed a resolution requesting the Secretary of Commerce and Labor to send to the House any information relative to the introduction of foreign laborers into South Carolina by Labor Commissioner Watson and the opinion of the solicitor of the department whether said laborers were lawfully admitted.

Mr. Gardner stated that 414 people had been admitted for labor in the factories in South Carolina, largely from Belgium, and it was desired to know whether the alien contract law had been violated.

Mr. Finley, of South Carolina, in denouncing the action of the labor commissioner, said that Mr. Watson had acted in entire good faith; that the State needed desirable immigrants, and

BRITISH CONSUL AND CLUB MANAGER RESIGNS POSITION

P. A. S. BRINE.

Mr. P. A. S. Brine, British Vice-Consul at Richmond, and manager of the Westmoreland Club, resigned both positions yesterday, and will move shortly to Norfolk, where he will engage in the hotel business.

Mr. Brine was appointed British Vice-Consul at Richmond on November 2, 1894, during the second Cleveland administration. Before that he had served several years as the principal agent of Great Britain, he came to this country in 1880, and for some years made his home in Bedford county, settling in Richmond in 1887.

In club circles in Richmond Mr. Brine has long held a prominent place, having been one of the organizers and charter members of the Deep Run Hunt Club. He was for five years manager

of the Virginia Club, and has now been five years in a similar position at the Westmoreland.

Mr. Brine goes to Norfolk to accept a position as manager of the Victoria Hotel, a new house, which will be ready for guests early in March. The Victoria is a handsomely fitted house, of permanent construction, with one hundred rooms. Mr. Brine expects to take charge there on March 16th, having given thirty days' notice of his intention to leave. The annual meeting of the Westmoreland Club will be held on Monday evening, at which time Mr. Brine's resignation will be presented. The board of governors have not as yet made any arrangements as to supplying his place, and the question of who will now become British Consul in Richmond is equally in doubt.

PERUNA EDITORIAL NO. 2.

In our last editorial on Peruna, after showing that this well-known family medicine is no longer a secret remedy, but prints on the label of the bottle the principal active ingredients, we made the statement that PERUNA IS AN EXCELLENT CATARRH REMEDY.

The question now arises whether we are claiming for Peruna more than the facts warrant. Have we abundant proof that Peruna is in reality a catarrh remedy? Have we proof of this fact so well established that even the critics of Peruna must admit the force of our evidence?

Our task will be an easy one to show what eminent authorities think of the ingredients which compose Peruna.

Take, for instance, the ingredient HYDRASTIS CANADENSIS, OR GOLDEN SEAL. The United States Dispensary says of this herbal remedy, that it is largely employed in the treatment of depraved mucous membranes, chronic rhinitis (nasal catarrh), atonic dyspepsia (catarrh of the stomach), chronic intestinal catarrh, catarrhal jaundice (catarrh of the liver), and in diseased mucous membranes of the pelvic organs. It is also recommended for the treatment of various forms of diseases peculiar to women.

Another ingredient of Peruna, CORYDALIS FORMOSA, is classed in the United States Dispensary as a tonic.

CEDRON SEEDS is another ingredient of Peruna, an excellent drug that has been very largely overlooked by the medical profession for the past fifty years. THE SEEDS ARE TO BE FOUND IN VERY FEW DRUG STORES. The United States Dispensary says of the action of cedron that it is used as a bitter tonic and in the treatment of dysentery, and in intermittent diseases as a SUBSTITUTE FOR QUININE.

OIL OF COPAIBA, another ingredient of Peruna, is classed by the United States Dispensary as a mild stimulant and diuretic. It acts on the stomach and intestinal tract. It acts as a stimulant on the genito-urinary membranes. Useful in chronic cystitis, chronic dysentery and diarrhea, and some chronic diseases of the liver and kidneys.

THE EMINENT AUTHORITY ON THERAPEUTICS, BARTHOLOW, in speaking of these same ingredients of Peruna is even more enthusiastic as to their medicinal merit.

OF HYDRASTIS, HE SAYS it is applicable to stomatitis (catarrh of the mucous surfaces of the mouth), follicular pharyngitis (catarrh of the pharynx), chronic coryza (catarrh of the head). This writer classes by hydrastis as a stomachic tonic, useful in atonic dyspepsia (chronic gastric catarrh), catarrh of the duodenum, catarrh of the gall duct, catarrh of the intestines, catarrh of the kidneys (chronic Bright's disease), catarrh of the bladder, and catarrh of other pelvic organs.

BARTHOLOW REARDS COPAIBA as an excellent remedy for chronic catarrh of the bladder, chronic bronchitis (catarrh of the bronchial tubes).

BARTHOLOW STATES THAT CUBEBA, an ingredient of Peruna, promotes the appetite and digestion, increases the circulation of the blood. Useful in chronic nasal catarrh, follicular pharyngitis (catarrh of the pharynx), increasing the tonicity of the mucous membranes of the throat. It also relieves hoarseness. Useful in atonic dyspepsia (catarrh of the stomach), and in chronic catarrh of the colon and rectum, catarrh of the bladder, prostaticorrhea, and chronic bronchial affections.

MILLSPAUGH, MEDICINAL PLANTS, one of the most authoritative works on medicinal herbs in the English language, in commenting upon COLLINSONIA CANADENSIS, says that it acts on the pneumogastric and vaso motor nerves. It increases the secretions of the mucous membranes in general. In the mountains of Virginia, Kentucky, Tennessee and Carolina, collinsonia canadensis is considered a panacea for many disorders, including headache, colic, cramp, dropsy and indigestion. DR. SCUDDER regards it highly as a remedy in chronic diseases of the lungs, heart disease and asthma.

These citations ought to be sufficient to show to any candid mind that Peruna is a catarrh remedy. Surely, such herbal remedies, that command the enthusiastic confidence of the highest authorities obtainable, brought together in proper combination, ought to make a catarrh remedy of the highest efficacy.

This is exactly what we claim for Peruna. We claim no more than the best authorities willingly admit. It is useless for envious doctors or hostile critics to attempt to set aside such proof.

Some of these ingredients are not in common use. Some of them are difficult to obtain, and still more difficult to combine into a stable and palatable compound. They have been, therefore, neglected by the medical profession, largely, for remedies that are easier to obtain and more convenient to dispense.

Peruna is a catarrh remedy that has been in the field for many years. OTHER CATARRH REMEDIES HAVE COME AND GONE, but the reputation of Peruna has outlived them all.

Peruna is a combination of efficient herbal remedies that wields a powerful influence on all the mucous membranes of the body, and hence reaches catarrh wherever it is located.

This is our claim, and we are able to substantiate this claim by ample quotations from the HIGHEST MEDICAL AUTHORITIES IN THE WORLD.

man of this city and was beloved by her mother, three sisters and two brothers to mourn their loss.
